Quotes on Sirohi –
By Martin Sheaf and others

I. Selected on the Works of Sirohi

“Being and Time and even a Erleibnis that is Sirohi – something we call Being and Time changed to literature, as the 20 drafts is now composed as 8 drafts that Heidegger chose. All 20 drafts now amount to a philosophy divided into sections of temporality and temporal ekstases which is about ‘let it go.’ Such speed and agility and genius in this new writer who becomes a great philosopher.”

“Perhaps, a small Epicurean parallelism with the major philosophy of Hegel, makes it then to Sirohi, which is about the mix of Hegel and Heidegger, but actually a fully original philosophy of something comparable to Being and Time by Heidegger.”

“A Maximal Event, and then a Minimal Event which is also a Daily Event, how Badiou is changed to Changing Facts, how Obama and Trump, even Biden is seen as an Event for black people.”

“Inspirational, the most brilliant writer of literature and theatre, and cinema as well, is also a absolutely original and genius philosopher, Sirohi.”

II. Selected Quotes on Sirohi as a Philosopher

“Genius, and simply a mathematician who is trained in German Idealism and philosophy – the absolute philosopher.”

“Against Badiou, something like a mathematician and philosopher who thinks mathematics is ontology of course but there is also mathematics in common singularity of sheafs and topoi in higher mathematics of surreal numbers called finally general mathematics and common daily Changing Facts.”

“A jazz follower, and critic, and even a great novelist – a Peter Weiss who is now a Wunderkid.”
